

Adding External Account

1. Select the 'Add External Account' option under the 'Transactions' menu.
2. Enter your external 'Account Number'.
3. Select the 'Account Type' from the dropdown.
4. Enter the external 'Routing Number'.
5. Click on 'Continue'.

ADD AN EXTERNAL ACCOUNT
 This form will enable you to request that an external account (an account you have at another financial institution) be linked to your external account.

There are two steps in this process:

- Step 1: Add Your Account
- Step 2: Verify Your Account

Please input the routing number and your account number located on your check (see the sample check below). If you want to add a savings account, please contact your financial institution for the routing number that they use for savings deposits. Also verify if your account is eligible for ACH transactions as not all savings accounts allow for ACH transactions. If you have issues with your micro deposit showing up in your account, verify the routing number with the other financial institution as not all financial institutions have one routing number for all account types.

Step 1: Add Your Account

To begin, you will need to input the following information about the account you would like to add:

- Institution's Routing Number
- Your Account Number
- Account Type (checking or savings)

Once this information has been entered, click on the Continue button.

Two "micro" deposits will be generated and sent to your external account (typically within 5 business days). Micro deposits are random deposits in amounts less than \$1. Once you have received these two micro deposits in your external account, make note of both amounts as you will need them later in step 2, the verification process.

- **Please Note:** Only domestic (U.S.) banks are allowed.
- If the micro deposits do not appear in your account within the specified timeframe, contact the other financial institution to verify that you are using the correct routing number as some institutions do not use a single number for all account types.

6. A message that your 'request has been submitted' will display on the screen along with other instructions.
7. Check your external account for two small deposits.

NOTE: You will also see a debit for the total of the two small deposits to offset the transaction.

External Account Authorization

Your External Account request has been submitted.

Two small trial deposits will automatically be made to your External Account. It can take up to three business days for these deposits to appear in your External Account.

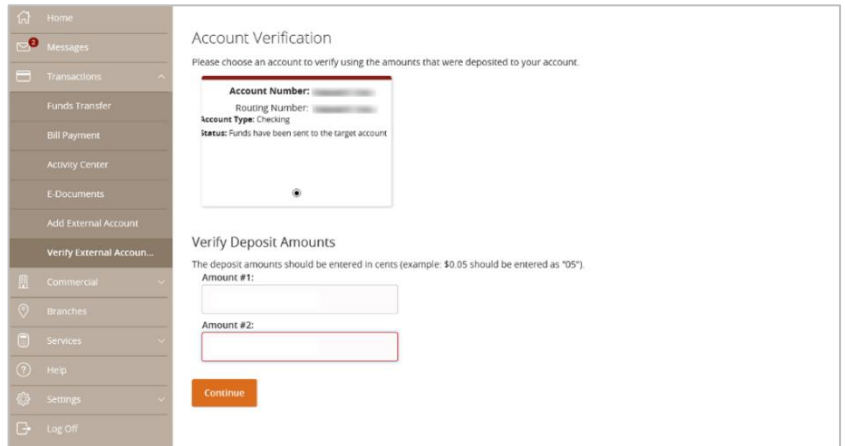

When you receive the two trial deposits in your External Account, choose 'Transactions' from the main menu in Online Banking and use the 'Verify External Account Requests' option to verify your External Account. You will need to know the amounts of both trial deposits to verify your External Account.

You will not be able to make transfers to/from this External Account until the trial deposits have been verified.
